

Letter to all parents

28 October 2011

Dear Parents

*Mobile Abingdon Prep Web App*

I am very pleased to direct you a detailed explanation of how to access our brand new web app below. We intend to continually develop this app over the coming year and included in the plans are the integration of images (when connected to wi-fi) to accompany the news articles alongside increased calendar functionality.

If you have any feedback or feature ideas, please feel free to contact me.

## School News and Calendar in an all new App!

We're proud to be using cutting edge technology to keep you in touch with the school. Our new App is optimised for many smart devices including the iPhone, iPad and Android.

You can view the calendar and news headlines both on-line and off-line

Access the App direct in the phone's browser (no need to download and install)

For Apple devices, on first entering the app, press the home key and choose 'Add to Home Screen'. On Android just save as a bookmark.

## Simply browse to [m.abingdonprep.org.uk](http://m.abingdonprep.org.uk)

If you have feedback or feature ideas please contact Mike at [dhm@abingdonprep.org.uk](mailto:dhm@abingdonprep.org.uk)  
Only 3 months of the calendar and news headlines are prefetched for storage offline. News stories should be accessed online for later offline usage.  
App developed in latest HTML5 technology by Olamalu Web Development and Nigel Marsh Ltd.

Yours sincerely

Mike Rees
