The pupils will learn the importance of each value through a variety of games, discussions and role play activities. They will also learn to improve their thinking, listening, concentrating and speaking skills. The pupils will be working on strategies to improve their confidence and assertiveness.</p>
English	Science
<p>The pupils will be studying the following topics this term: Phonics, spelling and comprehension – The pupils will continue to follow the Read Write Inc. phonics scheme. Fiction - Stories in familiar settings: They will read and discuss a range of fiction texts, focusing on settings and imaginative descriptions. Non Fiction - Instructions: Using the book <i>Beware of Boys</i> the pupils will look at a range of recipes discussing layout, adjectives, and verbs before writing their own recipes. Poetry - They will study a variety of rhyming and non-rhyming poetry, and read and write shape poetry.</p>	<p>The pupils will study two main themes: Light and Shadow: The pupils will investigate keywords and concepts associated with light through undertaking a number of investigative activities; reflective, luminous, opaque, translucent, scatter, absorb. They will learn that light travels in straight lines and from an object to an eye. They will apply their knowledge when making mirror mazes and pinhole cameras. Friction: Through a large variety of investigations, pupils will become more aware of how to undertake and review fair testing. The areas investigated will be the level of friction caused by different surfaces, gravity, upthrust in air and water resistance. They will also learn about the relationship between surface area and friction. They will complete a short assessment at the end of each unit.</p>
Mathematics	Religious Education (RE)
<p>The pupils will be studying the following topics this term: Number: The pupils will understand place value and partition numbers into Hundreds, Tens and Units; count in various steps forwards and backwards from 2 and 3 digit numbers; and learn their number bonds to 20 and 100. They will learn addition and subtraction strategies and investigate real life word problems. They will practise the rapid recall of multiplication and division facts and recognise the relationship between them. They will also understand multiplication as repeated addition. They will learn to recognise and find fractions of shapes and numbers. Shape and Space: They will name and describe the properties of 2D and 3D shapes, also recognising regular and irregular polygons. Measure: They will estimate and measure lengths in m, cm and mm; recognise the relationship between cm and m, km and m, mm and cm; and add and find the difference between two or more lengths. Children will learn to tell the time to the nearest 5 minutes on digital and analogue clocks.</p>	<p>This term the pupils will be exploring what RE is and linking a variety of faiths and beliefs to different festivals such as Diwali, harvest and Hanukkah.</p>
Geography	Drama
<p>The pupils will study the following: Investigating our Local Area: They will learn to locate the local area on a map and to give directions. They will learn to identify physical and human features. Countries of the World: They will identify the continents of the world and find out about some of the key geographical features of each continent. They will begin to locate countries on a world map and locate major capital cities.</p>	<p>The main focus over this term is to enable the pupils to build up their confidence and basic acting skills through a range of drama games and activities. The Gruffalo will be used as a stimulus for individual and group tasks, through which they will develop both their voice and movement. The boys will also develop their</p>
French	Computing
