

ABINGDON

From Biology Teacher: Su McRae

30 September 2016

Dear Parent/Guardian,

The biology department is offering an exciting opportunity for a group of sixth form biologists to attend the highly acclaimed Science Live: A-Level Biology event (<http://www.alevelsciencelive.net/>). Speakers include Prof Robert Winston, Prof Steve Jones, Dr Emily Grossman and many more.

This is a day trip on Tuesday 6 December 2016. Transport will be via minibus to Didcot station and then train into London, returning in the same fashion. Our return time will miss the School buses and boys will need collecting from School from 6pm. If you live closer to London or Didcot please contact me to organise a more convenient travel arrangement. We will do our best to accommodate your needs, but it may not be possible due to staffing and timings etc.

Cost for the day, including a basic school packed lunch and transport is £85. By completing the attached consent form you agree to the whole price of the trip which will be added to your Lent Term Bill, Dec 2016 / Jan 2017.

Boys in the L6 will be back for parents' evening from 6pm.

Please have returns in to me by Friday 14 October 2016.

Yours sincerely

Su McRae – Biology Department
