

ABINGDON

From Biology Department: Su McRae

29 September 2017

Dear Parent/Guardian,

### **Science Live A'Level Biology**

The Biology department is offering an exciting opportunity for a group of 15 upper sixth form biologists to attend the highly acclaimed Science Live A' Level Biology event (<http://www.alevelsciencelive.net/>). Speakers include Prof Robert Winston, Prof Steve Jones, Prof Adam Hart and many more. Last year's event proved extremely popular and was very well received.

This is a day trip on Thursday 7 December 2017. Transport will be via minibus to Didcot station and then train into London, returning in the same fashion. Our return time will miss the School buses and boys will need collecting from School from 6.30pm. If you live closer to London or Didcot please contact me to organise more convenient travel arrangements. We will do our best to accommodate your needs, but it may not be possible due to staffing and timings etc.

Cost for the day, including a basic school packed lunch and transport is £75. By completing the attached consent form you agree to the whole price of the trip which will be added to you Lent Term Bill, Dec 2017 / Jan 2018.

Please have returns in to me by Friday 13 October

Yours sincerely

Su McRae
