Abingdon School Design & Technology
Summer Camp 2019

Design & Technology Workshop Sessions

This summer the School's DT Department is offering Design and Technology workshop sessions to our current lower school boys, and to boys who will be joining the Third Year in September 2019.

The workshops provide an opportunity to learn D&T skills and meet other like-minded boys.

The sessions will run over three mornings. The projects have been designed so the boys will use a range of tools and machines and complete a project from start to finish in each morning session.

The projects will be repeated on the corresponding day of each week so that boys can mix days from either week.

COURSE DATES:

July
8th, 9th,10th
and 15th, 16th, 17th
Mon-Wed each week

9am - 1pm

In line with the School's pricing of Summer Holiday activities there will be a charge of:

£20 per session
Includes all material costs.
