Why kids & parents love Code Camp!

Rated 4.9 out of 5 stars on Review.io!

"Elliott had the best time at Code Camp. He has ASD and sometimes finds it hard to settle in to new situations; however at Code Camp he immediately felt at home. From his amazingly warm and enthusiastic welcome from the team to every day he explained as 'flying by', he honestly told me he enjoyed every single second and learned a lot".

Sally

"My daughter went to Code Camp knowing not very much at all about coding, or had any clue about how games are constructed. She took to it as if she had been coding all her life! The teaching by the young team was amazing, she learned a new skill, made some new pals, had a lot of fun and gained a huge amount of confidence".

Sam

"My son absolutely loved his first Code Camp! He was so eager to show us what he had learnt each day! Well organised, loved the T-shirt/Cap and the Medal of acknowledgment at the end of the 3 days! We've already booked for the next one!"

Katherine

Book with confidence

We are so sure your kids will love Code Camp, if they don't want to come back after Day 1, we'll refund the remaining days!
