

ECO THOUGHT OF THE DAY

AUSTRALIAN BUSHFIRES

WWF

We are supporting and raising awareness for what the WWF are doing within Australia.

They are helping to restore homes for koalas and other wildlife, planting the first 10,000 trees urgently needed in koala habitats.

1. More than 10 million hectares have been burnt, and this number continues to climb. That's the equivalent of 40% of the entire UK.

2. Lives, homes, and up to one billion animals have been affected, including 30% of the entire koala population in mid-north coast of New South Wales.
