Dear Parent/Carer,

## Christmas Present Ideas! For Sale: Honda WASP Offroad Go-Karts

We are offering for sale two Honda offroad go-karts which could be singly or as a pair. These were built from kits as a boarders' project about five years ago and have had light use since. The link to the site the kits were purchased from is copied below:

<https://www.offroadkartplans.com/store/WASP-F500-c36395161>

The karts are suitable for children aged 12 or above and are fitted with the 200cc Honda engine. The engines start easily and are reliable. Some maintenance can be expected over the lifetime of the karts and so they would suit a teenager who is interested in mechanics or engineering. You would need a large field for them to be driven in and not to mind the grass being damaged by the tyres.

Upon completion of the project, the build was checked by a local garage before they were driven however that was a long time ago and so the karts are sold as seen and the purchaser(s) would need to sign a liability disclaimer.

If you would like any more information or would like to make an offer, then please contact Mr Simmons using the email address at the bottom of this letter. He is also able to deliver the karts within a reasonable radius of school.

Yours sincerely

Ben Simmons
